Monday 5/6

8:00AM-5:30PM	Pre-Conference Registration
8:00AM-9:00AM	Workshop A Check-In
8:00AM-9:00AM	Networking Continental Breakfast
9:00AM-12:00PM	<p>WORKSHOP A - Operational Efficiencies in AML: Ensuring Your Compliance Spending Is Worthwhile</p> <p>Using your compliance budget wisely is the key to a smart, productive program, especially as costs skyrocket. Worldwide spending for financial crime compliance was estimated to be \$274 billion in 2022, according to a Thomson Reuters report, and that doesn't include the costs of non-compliance. The key is for financial institutions to focus spending in ways that make a difference. The problem is that many leaders in AFC/AML compliance say there's a substantial gap between understanding the need for smart budget strategies and the actual execution. This interactive workshop will focus on how a three-sided plan of people, process and technology can make for productive compliance. We will examine best practices for using limited funding to adhere to AFC regulations.</p> <p>Key Areas Covered</p> <ul style="list-style-type: none"> • Being the change agent that enables your organization to execute AFC controls • Using technology, both short-term and long-term, to achieve effective compliance • Achieving efficiencies in implementing AFC regulations effectively • Creating repeatable feedback loops to develop and execute policies <p>Who Should Attend</p> <ul style="list-style-type: none"> • Compliance Officers • AML Professionals • Consultants • Risk Managers <p>Facilitators: Shilpa Arora, Head of Anti-Financial Crime Products and Solutions, ACAMS Dr. Liliya Gelemerova, Head of UK Financial Security, Crédit Agricole CIB Dr Mark Turkington, Advisor, Clientism</p>
12:00PM-1:00PM	Workshop B Check-In

1:00PM-4:00PM

WORKSHOP B - Writing for Success: Creating Useful SARs/STRs

Suspicious Activity Reports and Suspicious Transaction Reports are the crucial connection between financial institutions and law enforcement agencies. The key is finding the right balance between conveying information concisely while providing the necessary details. This workshop will show the best way to present a tight narrative and still provide the necessary facts for LE investigators to understand exactly what's happening. Instructors will explain how software can save time by auto-populating parts of the required forms, thereby reducing manual data entry. Those who attend will hone their skills on examples to understand what law enforcement agencies are looking for, including details on when and how to provide documentation, such as video and other information if available. Instruction will include advice on how to report across jurisdictions and explanations of EU, UK and US requirements as well as the FATF's Recommendation 20.

Key Areas Covered

- Identifying best practices to optimize SARs, from opening summary, narrative and conclusion to supporting documents
- Understanding the importance of timely filings
- Reviewing international regulatory & legal requirements for SAR filing

Who Should Attend

- AML/AFC Specialists
- Risk Managers
- Compliance Officers
- SAR Review Team Members

Facilitators:

11:20AM-12:10PM | DEEP DIVE - Learning the ABCs: Preparing for New Measures Against Bribery and Corruption

Corruption costs the EU economy an estimated €120 billion per year, and polls show two-thirds of Europeans believe corruption is widespread in their country. With that in mind, the European Parliament and the EU Council are working jointly on the European Commission's proposal for an anticorruption directive, which will transform the region's ABC laws. Already, an EU Network Against Corruption has been established.

You will learn how to:

- Implement new ways to detect corruption
- Map new regulatory requirements to your organization's ABC program
- Make industry best practice an integral part of your organization's ABC policies

OPEN FISHBOWL – Rights vs. Risks: The De-Risking Dilemma

For this “fishbowl” session, audience members who raise their hand, figuratively speaking, beforehand will be invited to take a guest turn on stage and share their take on the topic. Step up – literally – and help lead this thought-provoking discussion, made richer by your participation.

New government standards are emerging on how to deal with high-risk clients, amid pushback in the UK and other places about protecting customers’ rights. Financial institutions must perform a delicate balancing act in many cases. This expert panel will present a comprehensive blueprint on how your institution can manage this particular category of customers.

You will learn how to:

- Evaluate your enhanced due diligence procedures for PEPs
- Institute regular reviews of PEP risk management
- Avoid what FATF has called the “unintended consequences” of de-risking

Managing Insider Threats: How to Tackle Organized Crime in Financial Institutions

One of the oldest money laundering techniques is to buy a financial institution insider. Experts are warning that both bank and non-bank FIs need to increase their vigilance, especially with the huge sums controlled by narcotics rings and organized crime.

You will learn how to:

- Strengthen the screening of employees, consultants and third parties
- Analyze possible weaknesses in your organization and identify emergent fraud techniques
- Use people, process- and technology-based controls to identify malicious insiders

AMA (ASK ME ANYTHING) – AI: What’s Real and What’s Hype

With all the talk about how various forms of AI can revolutionize the AFC universe, including AML/AFC software, it’s time for a frank assessment of what really lies ahead – and what the timetable is likely to be. Complicating the issue is regulators’ interest in financial institutions’ use of advanced technology – and governments in the EU and UK moving toward regulating AI advances. Bring your questions and more to our AMA session; we’ll have the answers.

You will learn how to:

- Ascertain how – and whether – AI is likely to change your job in the near future with developments like perpetual KYC
- Analyze what regulators’ attitudes toward RegTech mean for your organization
- Identify which questions your institution should be asking about the implementation of innovative technologies, including risks and costs

The ACAMS Great Debate: Do Data Protection Laws Aid Financial Crimes?

The EU has some of the strictest privacy protections in the world, but do these laws hinder the detection of financial crime? The “Yes” side argues that data privacy regulations are making it difficult to act on some problematic customers. The “No” side says there are still plenty of ways to find wrongdoing. Following up on the wildly popular and highly engaging session at the 2023 ACAMS Assembly in Dublin, the ACAMS Great Debate returns in Amsterdam. One topic. Two opposing opinions. Who will get your vote?

MINI WORKSHOP – A Powerful Tool: Risk Assessments as Business Builders

A shorter version of our hands-on, multi-hour instructional sessions, mini workshops pack an interactive learning experience into just 50 minutes. After 25 minutes of guidance from our expert panelists, you'll confer with tablemates and then share takeaways with the entire group. In addition to gaining insights from our top-notch speakers, participants also benefit from the collective wisdom and experience of other attendees.

A Powerful Tool: Risk Assessments as Business Builder

When done properly, risk assessment is the best way for a financial institution to increase its ability to take on or manage risk through the smart use of resources. A good risk assessment program can be the foundation for a solid business strategy.

You will learn how to:

- Identify challenges to embracing risk assessments as a critical part of an institution's fiduciary responsibility
- Distinguish the risk assessment characteristics specific to individual lines of business
- Evaluate how a country's risk rating change due to political instability affects an institution's risk assessment
- Assess evolving regulatory developments, including recent guidance from the UK's Financial Conduct Authority and the European Banking Authority, and the impact of recent enforcement actions that highlight risk assessment deficiencies
